

INTRODUCTION TO PHARMA MARKET ACCESS

25 September 2019

1-Day Course

Overview

These days, both clinical effectiveness and 'value for money' are essential and pharma companies must navigate an increasingly complex re-imbursement landscape to make sure the product reaches the patients for whom it is intended. This course provides an introduction to the dynamics and challenges of Market Access in assuring pharmaceutical brands reach the patients.

It will provide those active in, or working with the Healthcare Industry, an **introduction to the Market Access dynamics and challenges**.

Course Objectives

At the conclusion of this course participants will be able to:

- Understand the Market Access landscape and the challenges from a Physician, Patient, Payer and Pharma perspective
- Explain what benefit or improved health outcomes means, including Quality of Life
- Learn the different types of assessments of evidence for economic evaluations, including Health Technology Assessment
- Gain understanding of pricing strategies and appreciate the country system differences

Course Topics

- Introduction to Market Access
- Landscape: Who are the Stakeholders and what are their perspectives
- Health Outcome Assessment types
- Pricing
- Country systems

Who should attend?

This course has been designed for Professionals working in the pharmaceutical industry, particularly those in Drug Development, Regulatory Affairs, Medical Affairs or professionals working with the pharmaceutical industry, who want to learn about the role Market Access plays in providing access of pharmaceutical brands to patients.

Course Leader

Dr Jolanda Groenhuijzen, MD is an independent management consultant operating in the healthcare industry based in Basel. Prior to starting her own business, she was a seasoned healthcare industry professional: her experience includes international operational and managerial roles in Medical, Marketing and Market Access for blue chip companies AstraZeneca, Pfizer and Novartis. She graduated as a Medical Doctor from the Erasmus University in Rotterdam.

Learning Methodology

Interactive sessions with a mix of lecture, case studies to illustrate theory, exercises to test the knowledge and Q&A.

Continuing Education

This course is accredited by the Swiss Association of Pharmaceutical Professionals (SwAPP) and the Swiss Society for Pharmaceutical Medicine (SGPM).
