

***This training workshop will take place in a virtual format via a digital platform***

**Live virtual Instructor-led Training Course**

## **INTRODUCTION TO CLINICAL RESEARCH**

**Module 1: 18<sup>th</sup> November 2020 – Module 2: 25<sup>th</sup> November 2020**

**Virtual Classroom**

### **Who Should Attend?**

This course is designed for those with **no or little experience** in clinical research or those seeking **an overview of the clinical research process, regulations, terminology, acronyms, roles and responsibilities within clinical research.**

### **Course Objectives**

The course offers a general overview of the drug development process and most relevant tasks and responsibilities within the clinical research setting. With this course you will:

- Understand how drugs are developed and who the key players are in the process
- Become knowledgeable about the terminology used in the clinical research environment
- Find out what rules, guidelines and laws are essential
- Learn how a clinical study is set up and performed
- Become familiar with and understand how to handle the documentation required in clinical research

### **Course Modules**

08:30 - 12:00 CET (*incl. breaks*)

- Developing a drug in the pharmaceutical industry – from the idea to the product you buy in the pharmacy – and the contributions of clinical research
- What is a clinical study – the four phases of clinical development
- Who are the key players and what are their roles in the process
- The language and abbreviations the clinical research team are using every day
- What are the rules, guidelines and laws that need to be followed and why are they so important
- How is a clinical study performed – from preparation over conduct to termination of a study
- A key to a successful study: the master study file. What documents are essential and how are they handled, filed, and archived?

## **INTRODUCTION TO CLINICAL RESEARCH**

**Module 1: 18<sup>th</sup> November 2020 – Module 2: 25<sup>th</sup> November 2020**

**Virtual Classroom**

### **Course Leader**

**Tamara Schärer (MSc, ECPM)**, Managing Director, SRS Schärer Research Services, Basel, Switzerland  
Ms Schärer started working in the pharmaceutical industry as a Clinical Research Scientist in the field of CNS for Sandoz in 1996. After the merger to Novartis, she became the Therapeutic Area Coordinator for all Phase IV studies in Oncology. In 1999 Tamara moved to a small CRO as an International Project Manager and later trained as a GCP Auditor to become Quality Manager Clinical Operations. In 2002, she founded SRS Schärer Research Services.

### **Learning Methodology**

The combination of live trainer interaction, information sharing and opportunities for conversations and discussions of the theory will help ensure you have a comprehensive understanding of the course content.

### **Technical Requirements**

The training will be delivered via digital platform. In order get access you will need an internet connection, audio (from computer speakers or microphone), and a webcam (standalone or integrated with your monitor/laptop).

### **Continuing Education**

This course is accredited by the Swiss Association of Pharmaceutical Professionals (SwAPP) and the Swiss Society for Pharmaceutical Medicine (SGPM).

**SwAPP**
