

INTRODUCTION TO CLINICAL RESEARCH

17th November 2021

Overview

The course offers a perfect introduction to understanding the complex process of drug development and most relevant tasks and responsibilities within the clinical research setting

Who Should Attend?

This course is designed for those **new** to or with **little experience** in clinical research, those in **supporting roles** and **departments** or those seeking **an overview** or **needing a basic training of the clinical research process, regulations, terminology, acronyms, roles and responsibilities within clinical research.**

Course Objectives

With this course you will:

- Understand how drugs are developed and who the key players are in the process
- Become knowledgeable about the terminology used in the clinical research environment
- Find out what rules, guidelines and laws are essential
- Learn how a clinical study is set up and performed
- Become familiar with and understand how to handle the documentation required in clinical research

Course Topics

- Developing a drug in the pharmaceutical industry – from the idea to the product you buy in the pharmacy – and the contributions of clinical research
- What is a clinical study – the four phases of clinical development
- Who are the key players and what are their roles in the process?
- The language and abbreviations the clinical research team are using every day
- What are the rules, guidelines and laws that need to be followed and why are they so important?
- How is a clinical study performed – from preparation over conduct to termination of a study
- A key to a successful study: the master study file. What documents are essential and how are they handled, filed, and archived?

INTRODUCTION TO CLINICAL RESEARCH

17th November 2021

Course Leader

Tamara Schärer (MSc, ECPM), Managing Director, SRS Schärer Research Services, Basel, Switzerland. Ms Schärer started working in the pharmaceutical industry as a Clinical Research Scientist in the field of CNS for Sandoz in 1996. After the merger to Novartis, she became the Therapeutic Area Coordinator for all Phase IV studies in Oncology. In 1999 Tamara moved to a small CRO as an International Project Manager and later trained as a GCP Auditor to become Quality Manager Clinical Operations. In 2002, she founded SRS Schärer Research Services.

Learning Methodology

The combination of trainer interaction, information sharing and opportunities for conversations and discussions of the theory will help ensure you have a comprehensive understanding of the course content.

Continuing Education

This course is accredited by the Swiss Association of Pharmaceutical Professionals (SwAPP) and the Swiss Society for Pharmaceutical Medicine (SGPM).

REGISTRATION FORM

First Name*: _____

Last Name*: _____

Company*: _____

Job Title*: _____

Billing Address*: _____

Telephone*: _____

Email Address*: _____

Background: _____

Experience: _____

Are you a CTC employee? yes no

Are you a SwAPP member? yes no

Are you a SBA member? yes no

What do you expect to get from this course?

Do you wish to receive regular training updates? yes no

I agree to the [terms and conditions](#) yes

REGISTRATION INFORMATION

Dates:
17th November 2021

Time:
09:00-17:00

Venue:
CTC AG, Münchensteinerstr. 41, CH-4052 Basel

Directions:
Tram 15, tram stop «Grosspeterstrasse»

Registration Fee: CHF 850.00 + 7.7% VAT
15 % reduction for members of SwAPP and SBA
Special fees for CTC employees
Special rates available for PhD Students, group discounts available.
Please contact training@ctcresourcing.com

Registration fees include: Course documentation, refreshments, lunch and a course participation certificate.

Payment: After registration you will receive confirmation and an invoice with instructions on how to complete the bank transfer. Full prepayment is needed prior to the course start date.

Cancellation Policy:

- Cancellations received **more than 14 days before** course: **100% refund** less bank charges & cancellation fee of CHF 50.00
